# OVER 3 GW INSTALLED

## EQUIPPED WITH INGECON® SUN INVERTERS

Ingeteam boasts a long, proven track record in the industrial and energy sectors, which stretches back to 1972, clearly demonstrating the company's ongoing policy of technological development. In the nineties, Ingeteam became more involved in the development of electrical and control systems specific to the renewable energies sector; this was initially directed at the wind power and hydroelectric sectors and then, from 2001 onwards, our company broadened its scope to encompass the PV solar energy sector as well.

Since then we have provided our customers with more than 3 GW of power with INGECON® SUN pho-

tovoltaic inverters. This confirms Ingeteam as one of the world leaders in the PV sector.

At Ingeteam, we have extensive experience in the design and supply of on-grid inverters for power ratings ranging from 2.5 to 1000 kW, for large-scale PV plants. We also specialize in the design and manufacture of high-power off-grid and micro-grid inverters for stand-alone installations, having supplied this type of inverters principally to the regions of Pacific Asia and Africa.

One of our key benchmark projects is the PV plant at San Bellino (Italy); this plant is one of the largest of its kind in the world, having an installed rated power of 70 MWp.

The 60 MWp Nobesol solar plant situated in Olmedilla de Alarcón (Spain) is another important project in which Ingeteam has participated, supplying more than 450 INGECON® SUN 100 inverters.

Ingeteam has also supplied on-grid PV inverters to some of the most relevant commercial installations, like the world's largest PV greenhouse, a 20 MWp installation in Sardinia (Italy).

### 1. ISOLUX CORSÁN

PV plant at San Bellino (Italia)

70 MWp (60 INGECON® SUN PowerMax)

2

3

**ACCIONA SOLAR**

2. PV installation on facade (Spain)  
60 kW (5 INGECON® SUN Smart)

3. PV array at Amareleja (Portugal)  
46 MWp (70 INGECON® SUN PowerMax)

4

**4. CANTIERI ITALIANI**

Concrete housing at Sardegna (Italy)  
9 MW (10 INGECON® SUN PowerMax)

5

**5. NOBESOL**

PV array at Olmedilla de Alarcón (Spain)  
60 MWp (452 INGECON® SUN Power)

Stand alone PV array at  
Innawonga Bellary (Australia)  
20 kWp (INGECON® HYBRID)

### 7. GENERAL ELECTRIC AND MOSER BAER CLEAN ENERGY

Installation in Sardegna (Italy)  
20 MWp (14 INGECON® SUN PowerStation with  
28 INGECON® SUN PowerMax inverters)

### 8. RISING SUN SOLAR

PV array at Hawaii (USA)  
250 kW (2 INGECON® SUN Power U,  
2 INGECON® SUN Smart U)

9

**9. SINERGIA SISTEMI**

PV on-roof installation at the Lamborghini factory in Sant'Agata Bolognese (Italy)  
1.2 MWp (20 INGECON®SUN Lite, 2 INGECON®SUN PowerMax, 1 INGECON®SUN Power)

10

**10. GMN**

Stand alone PV away at Nembrala (Indonesia)  
21 kWp (1 INGECON® HYBRID)

11

**11. GRUPOTEC SOLAR**

PV array on an industrial roof at Molina de Segura (Spain)  
990 kWp (9 INGECON®SUN Power)

12

**12. ISOLUX CORSÁN**

Installation in the county of Cornwall (England)  
15 MWp (24 INGECON®SUN PowerMax)
